

# BMI CONTRACTING

## DEMOLITION BOOKLET

Safe project delivery, together

Our aim is to make your demolition stress free, leaving you time to focus on building your dream home.

## 1. ON SITE INSPECTION

We don't have X-ray vision, and neither does the next contractor, so estimating off Google Maps just isn't right. We want to take this opportunity to meet you personally, understand your project's needs, and to answer any concerns you may have.

## 2. FULLY PERSONALISED QUOTATION

Your old home is just as unique as your new home - your quotation will reflect that. BMI Contracting provides a fully detailed quote so you are certain as to what is included.

Call us today at 1300 264 752 or  
visit [www.bmiccontracting.com.au](http://www.bmiccontracting.com.au) for more information!

### **3. APPLICATIONS AND DISCONNECTIONS**

On acceptance of quote we manage the DA application and all service disconnections. We ask you to provide consent for BMI to act on your behalf, then we take care of the rest. No further paperwork or headaches for you!

### **4. THE DEMOLITION**

BMI Contracting will complete asbestos removal and demolition works as per SafeWork NSW requirements. BMI Contracting has an open book policy, providing you with photo and email updates throughout the duration of your project.

Call us today at 1300 264 752 or  
visit [www.bmicontracting.com.au](http://www.bmicontracting.com.au) for more information!
