

Environment Policy

BMI Contracting is committed to achieving compatibility between economic development and the maintenance of the environment.

- To fulfil this commitment we the PCBU and our workers will observe all environmental laws by;
- Ensuring compliance with environmental legal requirements including the EPA Regulations, AS/NZS Standards and industry best practice as a minimum level within all of its activities;
- Integrating environmental factors into planning and operational decisions and processes;
- Assessing environmental effects of our activities and regularly monitor and audit our environmental performance;
- Continually improve our environmental performance;
- Promote environmental awareness among our workers and contractors to increase understanding of environmental matters;
- Use of innovations and technologies to minimise atmospheric emissions and noises;
- Minimise the generation of waste products;
- Being an industry leader in Environmental Management.
- Support the principles of Ecologically Sustainable Development as detailed in NSW environmental legislation.
